

MATLAB®  
& SIMULINK®

# Computational Finance with MATLAB

**9 March 2023, 10:00 – 11:30**

**Università di Roma La Sapienza – Fac. Economia  
Labinfo (ground floor)**

Computational Finance with MATLAB is a seminar for both educators who want to bring a more operational focus to their classes, and for students who want to learn more about trends in finance such as cloud computing, artificial intelligence, and the impact of climate change. This seminar walks you through the basics, then shows you how to stretch your new skills to create advanced models.

## Highlights

- A quick overview of the MATLAB environment
- Modeling Risks on a portfolio
- Pricing derivatives
- AI for Fraud forecasting
